pac

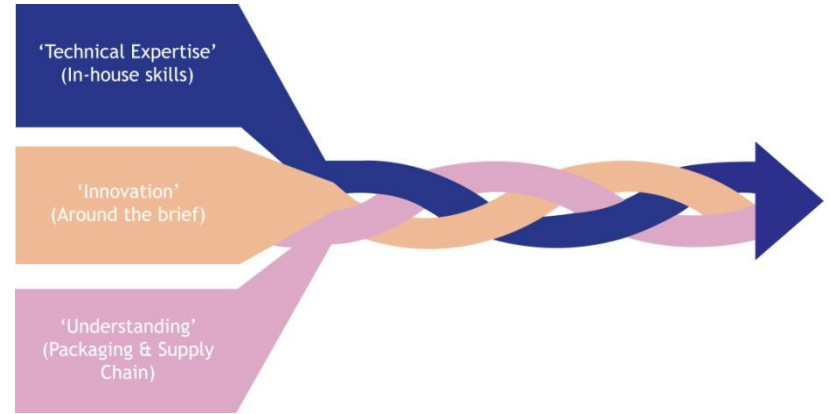

“Solving your product and supply chain challenges through effective design and pragmatically engineered packaging solutions.”

Design, engineering and innovation skills in house

- ✓ We can approach any issue from any direction
- ✓ Resources readily available to meet the full scope of any project we undertake

Broad industrial experience and diverse backgrounds

- ✓ Adding another dimension
- ✓ Cross pollination of ideas

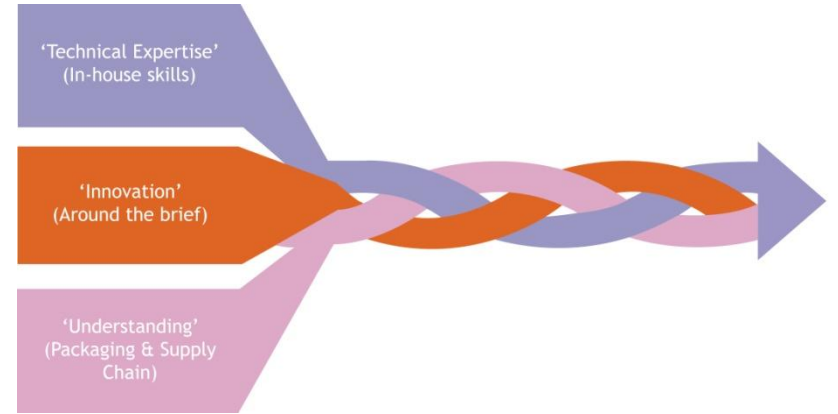

“Our technical expertise and in-house skills give our clients a distinct advantage.”

As innovators we think outside the box

- ✓ Working with you to explore more options
- ✓ Identifying a broader base of possible solutions to any brief or issues that you may face

Providing an end-to-end service

- ✓ Pragmatic and guaranteed solution
- ✓ Patents bear testimony to our ability to innovate

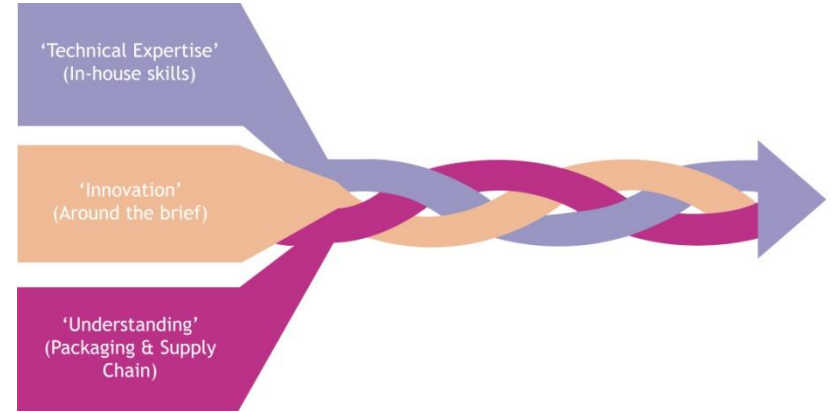

“Innovation around your brief.”

Recognised industry experience

- ✓ Identifying associated opportunities
- ✓ Reducing cost and increasing efficiency

Extensive design, engineering and innovation abilities

- ✓ Better design-out product and supply chain issues
- ✓ Increased manufacturing agility
- ✓ Enhanced supply chain and product offer for you and your customers

“We understand packaging and supply chain.”

Meet Some of the Team

The team behind iDi Pac have all been specifically chosen for their expertise, experience and talent.

As a team we deliver innovative yet pragmatic solutions to meet our clients' diverse and often complex needs.

Who We Are

Our professional team possess an enviable and unparalleled range of expertise.

Skills range from Structural and Graphic Design, Supply Chain expertise and Marketing, to state of the art prototyping - ensuring a truly holistic and fully integrated approach to any project.

To supplement our core team, our Associates deliver multi-disciplinary expertise, as a flexible and additional resource pool - a valuable asset for our clients and their teams.

Who We Are: Our Directors

Founded in 2008, the Directors of iDi Pac are Chris and Nicola Waterhouse.

Together, with our dynamic team, Chris and Nicola will work with you to provide innovative and, most importantly, pragmatically engineered and sustainable packaging solutions.

As a team we all believe that by listening to and clearly understanding our clients' specific needs, we are best placed to support both you and your customers.
